

BTB's "Winged" pinchweld scraper blades are an evolution of the popular WK6 pinchweld scraper blades. These unique blades are sharpened with a special wing on each end of the cutting edge, avoiding damage to paint & pinchweld often associated with using razor edge blades or utility knives when removing excess urethane bead.

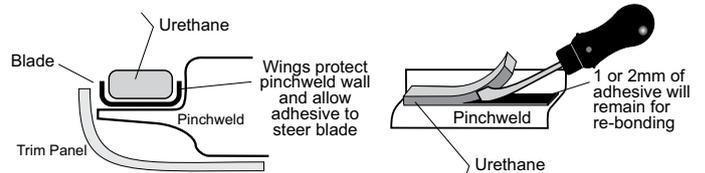

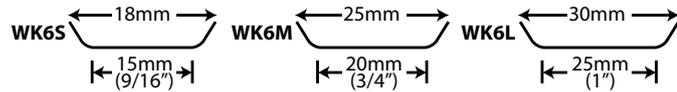

WK6 - "WINGED" ANTI SCRATCH PINCHWELD SCRAPER BLADES

WK6-S Special "Winged" Anti-Scratch Narrow Pinchweld Scraper Blade - 15mm (9/16") Wide

WK6-M Special "Winged" Anti-Scratch Medium Width Pinchweld Scraper Blade - 20mm (3/4") Wide

WK6-L Special "Winged" Anti-Scratch Wide Pinchweld Scraper Blade - 25mm (1") Wide

- Avoid damage to paint when removing excess urethane
- Safely remove urethane embedded with shattered tempered glass fragments

WK6 - ANTI SCRATCH PINCHWELD SCRAPER FLAT BLADES

WK6-15 Narrow Pinchweld Scraper (Flat Blade) 15mm (9/16") Wide

WK6-20 Medium Width Pinchweld Scraper (Flat Blade) 20mm (3/4") Wide

WK6-25 Wide Pinchweld Scraper (Flat Blade) 25mm (1") Wide

WK6-40 Extra Wide Pinchweld Scraper (Flat Blade) 40mm (1 9/16") Wide

AUTO BODY REPAIR APPLICATIONS

Auto Body Repairers can also use these blades for quick and safe removal of:

- Body Deadener
- Hemlock Seals
- Seam Seals

Trim remaining urethane from vehicle
